Produktbeschreibung

Covering 100% of the Adobe RGB colour space and 96% DCI-P3, the ViewSonic® VP2785-2K WQHD monitor meets the high colour standards of filmmakers, video editors, animators, print departments, illustrators, photographers, and other design professionals. Certified by Fogra as a Class A FograCert Softproof Monitor, you can be certain that whatever you're working on, the final output will be accurate and consistent. With a sleek and modern design, the VP2785-2K features future-proof DisplayPort technology, as well as HDMI and USB 3.1 Type-C ports. You can daisy chain monitors from Type-C or DP ports. To ensure precise, uniform colour, each of our monitors is factory calibrated to deliver an amazing Delta E<2 value for superior colour accuracy. An integrated colour uniformity function ensures consistent chromaticity across the screen, while a 14-bit 3D look-up table generates a stunningly smooth palette of 4.39 trillion colours. What's more, productivity-boosting features include an advanced ergonomic design, a built-in ambient light and presence sensor, and a KVM switch. Hardware calibration is also available, which allows you to quickly and easily calibrate the monitor for video, photography, graphic design, content creation, illustration, and other colour-critical applications.
