# Highlights

### **built-in 5 hours battery for c**

Get entertainment on the go with the built-in battery providing up to 5h of projection.

### **Built-in speaker**

No need for extra sound system, the built-in speaker enables the performance you need in a small package.

### **Compact and Powerful**

Compact, ultra powerful, and Apple ready. This is your perfect pocket cinema projector.

### **Fully Connected (HDMI, USB, US**

Connect all your favorite devices via HDMI or USB-C Video. The USB port will let you power any smart stick like Amazon Fire TV or Roku for a truly portable experience.

### **Get the perfect image**

Place it wherever you wish! Keystone, 4 corner correction and digital zoom help eliminate crooked and distorted images for a perfectly proportioned picture even if the device is not straight in front of the wall.

### **PowerBank**

Charge your smart devices via USB-C thanks to the massive battery.

### **True Full HD 1080p resolution**

Get a captivating experience in True Full HD 1080p! Pictures and colors remain lifelike with outstanding full high definition sharpness for text.

### **Advanced LED Light Source**

The powerful LED light source displays rich, vivid colors and will last up to 30,000 hours. You won't need to replace it since it lasts 20 years with an average usage of 4 hours per day! Additionally, the power consumption is far lower than a regular lamp based projector, which means you benefit from a bigger screen and fully immersive experience, all through an eco friendly device!
