

NEW PRESENCE SPEED MOBILE & FLOOR

Feel the smoothness

Easy, smooth and quiet manual height adjustment

Presence Speed is attractive and elegant from all sides, and well suited for placement in the center of the room. One of the best features is the clever manual height adjustment, thanks to the integrated BalanceBox. No electrical power is needed for the height adjustment of our Presence Speed series.

Brand new is the option of a flat, discreet foot that you can bolt to the floor. Both Presence Speed Mobile and Presence Speed Floor are designed for displays between 60 and 90 kg, perfect for touch displays. The display can be locked with the accompanying locking screw for personal safety, or with a padlock (not included) which provides increased protection from theft. The design of Presence is protected. Finish: New! Dark Grey. Stroke length: 400 mm. Display weight range: from 60 to 90 kg.
