

Smoke Cut Filter

Description

The smoke cut filter is an air filter unit for the PT-DZ8700, PT-DZ110X or other 3-chip DLP™ projector, for when the projector is used at events or other situations where smoke, fog or haze is being generated as a special effect.

Specifications	Dimensions (W × H × D):	62 × 137 × 331 mm (2-7/16" × 5-13/32" × 13-1/32")
	Weight:	446 g (15.7 ozs)

DLP and the DLP logo are trademarks of Texas Instruments.
Weights and dimensions shown are approximate. Specifications subject to change without notice.

Caution:

- When the filter is attached, be sure to switch the filter type on the projector's onscreen menu.
- The filter can be used for approximately 24 hours in smoky, foggy or hazy environments. Note that the filter cannot be reused. After use, replace it with an unused filter.
- The filter cannot be used at altitudes of 1,400 meters (4,593 feet) or more above sea level or when the ambient temperature is 35°C (95°F) or higher.
