

jtouch with Wireless Collaboration

HD touchscreen displays with our wireless collaboration solution enhance your presentation, teamwork, and content sharing capabilities.

- 40-inch DigiEasel or 65-inch JTouch
- 1080p display with multi-touch interactivity
- Connect mobile devices and share content wirelessly
- Built-in, full-featured digital whiteboard
- Access the Internet with the built-in Web browser

Wireless Collaboration

Make meetings and lessons of all types more efficient and engaging with the wireless collaboration solution from InFocus. Easily connect and share content from any mobile device without wires or cords. Our wireless collaboration solution comes packed with powerful tools and useful features to make team work easier than ever before.

- Robust and reliable connection via special apps with extra features:
 - Annotation from your smartphone or tablet mobile device
 - Built-in support for cloud drive services
 - Use your device's camera as a document camera
- See content from four devices at once with QuadView
- The Moderator feature empowers teachers to control a classroom full of student devices and choose who is presenting
- The Follow feature lets the audience follow along with the presented content from their own device
- Connect natively with AirPlay or Miracast, or via Chrome extension
- On-board video decoding displays HD video seamlessly, even at high resolutions
- Connect to your network to create a new, secure wireless access point

Interactive Whiteboard

Draw, write, capture, and share notes.

- Capture and save whiteboard notes electronically, and then email or print directly from the display
- Scroll seamlessly as you need additional space, with room for free-form drawings, diagrams, and notes
- Write or draw with a complete collection of digital pens, highlighters, shapes, lines, and colors

Browse the Web

Access your favorite online content from the JTouch.

- Quickly access your favorite Web content, curriculum, and file sharing platforms
- Easy access to favorites/bookmarks
- Connect the display to your network via LAN or WiFi
