Integrated Projector and Lighting Function

- Projection lighting presents and displays with creativity and originality. As well as spotlighting objects brightly, the PT-JW130 can project video or still images very clearly on or around the subject. This combination of illumination and projection is an effective way to attract attention in retail spaces, restaurants, and more.

- Attractively illuminate food and project images of ingredients, menu information, or scenery in restaurants

-Illuminate artwork and exhibits; project associated information in galleries or museums

- Present products in natural-looking light and display product information and other promotional media

Flexible Installation and Portability

- Compact spotlight-type design harmonizes with most interior designs

- Simple track mount or direct multi-mount to floor or ceiling for easy installation, removal, and relocation

- Flexible and portable lighting design irradiates all directions below horizon (also compatible with Portrait Mode)

- Wide range of selectable video inputs including SD card, HDMI, wired and wireless LAN

- Lighting Mode for use as spotlight (operation with wireless remote controller)

- Full function remote control included.
