

Dell Professional Projector- 1650

Dell Projectors

Impressive views. Impactful presentations.

A high-brightness WXGA projector with easy set-up and fast source switching for multi-user collaboration.

- **Designed for sharing:** Engaging your audience and sharing content is simple while vivid color and expansive screen sizes make presentations clear and easy to view.
- **Connect easily, anywhere:** You can connect your devices via a wide range of ports and take advantage of wired network control for management of multiple meeting rooms.

Broad visibility. Bright display.

Present comfortably and professionally in any small-to-midsized meeting room with a bright projector at a sensible price point.

- **Light up the room:** Providing high-quality XGA projections with 3800 lumens, so your presentations are crisp and bright, even in poorly lit settings.
- **Communicate clearly:** The 16:10 aspect ratio and extremely large screen size up to 362" inches, gives you clear images and easy, amplified big-screen collaboration.
- **Add another dimension:** Supports 3D projections: just add 3D glasses and you can take your presentation to the next dimension.

Easy to connect and manage

Perfect for schools and organizations that need an everyday, workhorse projector, the 1650 allows for numerous means of connecting so collaboration is simple and streamlined.

- **Switch it up:** Multiple ports make it easy to connect to almost any device and switch back and forth between multiple users.
- **Manage and share:** Wired network control makes it easy to manage multiple meeting rooms.
- **Options for your output:** It boasts a powered USB port for seamless connection to 3rd party dongles such as Google Chromecast or Microsoft Wireless.

Peace of mind included

Dell's high standards and best in class reliability mean you can trust in quality performance and a dependable replacement plan.

- **Built to last:** Our projectors are designed to deliver quality images day after day without performance worries.
- **Lasting lamp life:** A long lamp life equals dependable projection. Enjoy up to 3,000 hours in normal mode and 5,000 in eco mode.
